

SWA Bulletin #5 : 20 March 2020 at 7 pm**re: AGM's**

Please read through the newest updates from Swimming WA:

SAT-CS and Development Workshop

With pool closures slowly happening across WA, and Clubs finding themselves without facilities this is an opportunity to upskill some Members of the Club to participate in either entry-level Swim Australia Teaching - Competitive Strokes course (SAT-CS), or for those established coaches to complete some personal development and qualify to Development Coach through the development workshop.

SAT-CS registration link (please note, this venue will be changing to Lakelands WestSwim and date adjusted to 18th April).

AGM's and Coronavirus

Attached is information on steps required if your AGM cannot occur due to the changing environment and social distancing regulations. Please read carefully and see what will best suit your Club. Thank you to Bruce Havilah for contributing this information.

Country Swimming Team

Clarification on the age range for Country Swimming Team age group 14-17yrs.

Purpose of this Team is the retention of the age group, it is not intended for the best swimmers that are potentially heading to Canberra for State Championships. It is aimed at rewarding these age groups in the hope that it keeps them in the sport for another summer. Any questions please contact Luke in the SWA Office.

WestSwim Lakelands Club Use

The *WestSwim* Lakelands centre will be available for Clubs to utilize around the normal centre hours for Club events and meets. **Please contact - 6143 4511** and further discussions can be made regarding this as we are aware that many Clubs have lost access to their local pools at this time.

Club Pool Closures

We understand that many leisure centres and pools are closing due to coronavirus, if the pool that your Club is running out of closes please contact the Membership Team at the office as we are currently compiling a list of all of the affected Clubs. Please work alongside your aquatic centres during this difficult time and keep the lines of communication open.

Local Government, Sport
and Cultural Industries

Lastly, thank you to the Swimming community for coming together to support each other. Being informed of interclub partnerships occurring to share pool space, and coaching requirements are heartfelt and for those like Lesmurdie and Armadale/Kelmscott partnering is to be commended!
