

**2025 SunSmart Country Pennants
Saturday 1st & Sunday 2nd March
2nd Information Pack**

TECHNICAL OFFICIALS

Country Pennants is an ideal meet for Technical Officials to continue their training and to be assessed to gain new qualifications. It is also essential that we have adequate Officials working to successfully run the meet.

We are planning to organise training courses over the weekend for Technical Officials to continue their development based on demand. Please indicate the courses you would like to attend and any practical assessments you require to complete previous courses. From this information we will schedule courses based on the requirements of our country based Technical Officials.

Can you please provide the names of Officials within your Club who are available to work at the 2025 Country Pennants in Mandurah by completing the details on the attached form. Please note that Officials shirts will only be provided to those who work a minimum of three sessions out of the six available over the two days. These shirts need to be ordered prior to the mid December so we cannot guarantee shirts for officials nominated to attend in the third information pack.

Officiating appointments will be shared with those who respond with their details on the attached Officials Nomination form in the days leading up to Country Pennants 2025.

For enquires please contact Kay Bolger – buzybiz@rainbowis.com.au

Please return the attached form with your application to Karl Roots by **November 30th, 2024** via email mandurah.cp2025@mandurahswimmingclub.com.au

Thank you

Karl Roots
